A statewide resource for the most at-risk, vulnerable students in Nevada. J4NG is dedicated to the students it serves, which is why they spend 120+ contact hours with each youth program mentee, providing them with a stable, supportive connection as they gather the tools, competencies, understanding and life skills they'll need to graduate from high school and take their first steps on the pathway to lifelong success. <https://j4ng.org/>

Elevating students is a community project. It takes parents, business owners, educators, organizations, elected officials, volunteers and people who care—not to mention the students themselves—to build positive pathways toward lifelong prosperity for Nevada's youths. With more than 3,500 students in the J4NG program statewide, it is important to elevate the public awareness and perception of the organization and continue serving Nevada's most vulnerable populations.
